## **CHEMISTRY MINOR**

A chemistry minor consists of at least 19 hours to include:

| Code                                   | Title  | Hours |
|--|--|-------|
| CHEM 1111                              | General Chemistry I Laboratory   | 1     |
| CHEM 1311                              | General Chemistry I  | 3     |
| CHEM 1112                              | General Chemistry II Laboratory  | 1     |
| CHEM 1312                              | General Chemistry II   | 3     |
| CHEM 3111                              | Organic Chemistry I Laboratory   | 1     |
| CHEM 3311                              | Organic Chemistry I  | 3     |
| Select two courses from the following: |  | 7     |
| CHEM 3331                              | Inorganic Chemistry  |       |
| CHEM 3401                              | Quantitative Analysis  |       |
| CHEM 3112<br>& CHEM 3312               | Organic Chemistry II Laboratory<br>and Organic Chemistry II (count as one course<br>selection) |       |
| CHEM 4411                              | Biochemistry I   |       |
| CHEM 4481                              | Environmental Analysis   |       |
| CHEM 4131                              | Physical Lab   |       |
| & CHEM 4311                            | and Physical Chemistry I   |       |
| Total Hours                            |  | 19    |

To qualify for the minor a grade of no less than "C" must be obtained in each of the courses applied to the minor.
