The Department of Information Systems integrates technology with business through its various programs in Management Information Systems (MIS). These STEM-designated programs prepare you for successful careers in enterprise systems and business analytics. Employers across various industries, including retail, banking, e-commerce, energy, aviation, health care, and consulting, frequently seek candidates with an MIS degree. MIS graduates work closely with business functions such as accounting, finance, marketing, supply chain, and manufacturing, engaging in dynamic, team-based project-orientated initiatives.
