The Department of Educational Leadership offers a variety of graduate certificates and degrees that prepare students for leadership roles in various areas of the educational system. Programs in this department at the master's level prepare students for roles as principals and educational technology specialists; other certifications and programs prepare superintendents and educational researchers at the doctoral level. Master of Education degrees are offered online in an accelerated format with students taking one, five-week course at a time.

Students who hold a master's degree and teacher certification and seek an additional certification offered by this department should apply to the Educational Leadership Department for admission to the appropriate certification program.
