

# PROGRAM CERTIFICATE IN EDUCATIONAL DIAGNOSTICIAN

SPED 5322	Practicum for Educational Diagnostician	3
<b>Total Hours</b>		<b>21</b>

Degree: Certificate

Major: Educational Diagnostician

Total Hours: 21

Students seeking certification as an Educational Diagnostician who are enrolled in either the M.Ed. Special Education-Educational Diagnostician or Certification as Educational Diagnostician program will need to make arrangements with respect to access to test kits for the following assessment instruments (Woodcock-Johnson- Achievement, Woodcock-Johnson- Cognitive, WISC) **and** retain a certified Educational Diagnostician from a TEA-accredited school district who will supervise their use of such instruments. Lamar University, the College of Education and Human Development, and the Special Education program do not provide such test kits or make arrangements for site mentors.

- a. Master's Degree required from any of the following disciplines which require initial teacher certification in any academic area/discipline; For example, Special Education, Curriculum & Instruction, Early Childhood Education, Teacher Counselor, Educational Administration
- b. Hold a valid teaching certificate
- c. Have 3 years of teaching experience
- d. In order to obtain Texas certification as an Educational Diagnostician, you must complete your field experience on a TEA-approved public or private school campus where you will obtain the required practicum hours for certification under a certified educational diagnostician with at least three years of experience (To determine whether your school is TEA-approved, please use the following links: Public School [Private School \(https://www.tepsac.org/app/#/search/schools\)](https://www.tepsac.org/app/#/search/schools))
- e. Reference from your Principal

Instructions for submitting the department admission requirements will be emailed to each applicant after the ApplyTexas.org application is received and processed.

\*Please note that out-of-state or out-of-country candidates cannot receive a Texas certification as an Educational Diagnostician.

For out-of-state candidates, it is your responsibility to contact the appropriate licensing board in your home state before beginning this program. You should confirm with the licensing agency that this program meets the requirements for licensure in your state.
