Curriculum

ARTS 1301

Art Appreciation

The philosophy that underpins Lamar University's (LU) Hospitality Administration program is meant to provide students with both technical-and content-based learning opportunities. The current undergraduate curriculum builds a knowledge and skill base that is rooted in everyday operational skills as well as managerial skills such as problem-solving and real-life accountability. Given the scope of the industry, students are exposed to a wide range of courses emphasizing everything from lodging and food and beverage management to event planning and meeting management to facilities management and tourism. Management courses in law, organizational behavior, human resources, marketing, and accounting are taught from a hospitality perspective so that students learn the unique challenges of the industry.
