

ELECTRICAL ENGINEERING (M.E.)

Degree: Master of Engineering

Major: Engineering

Concentration: Chemical Engineering, Civil Engineering, Electrical Engineering, Industrial Engineering or Mechanical Engineering

Degree Requirements

- a. All College of Graduate Studies general degree requirements
- b. A minimum of 9 semester hours of core courses as specified by the academic department
- c. A minimum of 30 semester hours (10 courses) as determined by departmental requirements
- d. Satisfactory completion of a final comprehensive examination

Hours

Minimum number of hours required for the masters of engineering is 30 as based on departmental requirements

Up to six credit hours of graduate level coursework (5000 level) taken as part of B.S. engineering programs at Lamar University can be counted toward the 30-hour degree requirement. These courses shall receive prior approval by the department chair or his/her designee.
